Summary

Computer Science undergraduate at Model Institute of Engineering and Technology with a strong interest in software development and problem-solving. Experienced in building academic and personal projects while continuously expanding practical knowledge through hands-on learning. Solved 230+ LeetCode problems, strengthening analytical thinking and coding abilities. Seeking opportunities to apply my knowledge, contribute to real-world projects, and grow as a software developer.

Education

Model Institute of Engineering and Technology (MIET)

Bachelor of Technology (B.Tech) – Computer Science Engineering (Third Year)

CGPA: **7.6**

Jammu, India

July 2024 – Present

Government Higher Secondary School

Class XII (Higher Secondary)

Percentage: **81%**

Muthi, Jammu

Completion: 2024

K.S. Public School

Class X (Secondary)

Percentage: **98.4%**

Muthi, Jammu

Completion: 2022

Technical Skills

Languages: C, C++, JavaScript

Frontend: HTML5, CSS3, React, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB

Tools: Git, GitHub, VS Code, Postman

Projects

EchoScribe · Live Demo · GitHub

React, Node.js, Express.js

- Architected a full-stack web application featuring fluid state management and optimized server-side rendering routes.
- Engineered clean frontend interface controls and integrated modular backend API architectures to ensure low latency asset serving.

Study Assistant · Live Demo · GitHub

React, JavaScript, CSS3

- Developed an interactive student productivity portal structured around real-time browser session metrics and local browser data caching.
- Designed an intuitive, responsive dashboard interface focused strictly on clean interface accessibility and fluid DOM responsiveness.

Spotify Clone · GitHub

HTML5, CSS3, JavaScript

- Built a responsive replica of the Spotify desktop UI layout using high-fidelity modern CSS layouts, flexbox paradigms, and media queries.
- Implemented native web media APIs and custom element control event listeners using clean, vanilla JavaScript DOM manipulation routines.

Competitive Programming Profiles

- LeetCode** - profile: Solved **230+ algorithmic problems** utilizing C++, establishing solid fundamentals in core Data Structures and Algorithms (DSA).

Achievements & Certifications

- IBM AI Developer Professional Certificate** – Completed advanced professional path curriculum covering foundational AI architectures and runtime deployment methodologies.
- Software Developer Career Guide and Interview Preparation Certificate** – Issued by IBM for strict mastery of technical software concepts and system design practices.
- Successfully engineered, tested, and published multiple responsive frontend and full-stack software web tools onto scalable deployment platforms.
